Mobicity

Mobicity offers Brazilian companies a unique platform for integrating transport solutions, optimizing choices, automating management, and encouraging ride sharing. Coworkers use a mobile or web app to plan routes and order rides and managers have real-time visibility and control.

Benefits of Mobicity:

- Multimodal System – Mobicity is integrated with a diverse array of transportation options and allows you to choose one or more modes of transport. Mobicity integrates with company fleets, taxi apps, private drivers, rentals, vans and more.
- 360º management – Managers can access reporting and monitor your company's mobility in real time.
- User Experience – Mobicity is focused on providing an optimal service for employees.
- Simplified Expense-Reporting – By enabling the connection between Mobicity and Concur Expense, you can automatically send e-receipts for trips to Concur Expense.

Success story:
Enel SP managed to reduce its fleet by 27 vehicles and reduced the cost of average travel tickets by approximately 40% .

If you are interested in using Mobicity to optimize your organization's transportation, email us at contato@mobicity.com.br. Or, if your company is a customer of Mobicity, click the "Connect" button to enable the integration with Concur Expense.

Mobicity works with Expense for Concur Standard and Expense for Concur Professional. Is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the ECO Rent a Car integration, visit http://mobicity.com.br/

The Ascott Limited works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about The Ascott Limited integration, visit http://www.the-ascott.com/

ECO Rent a Car | Europcar

SAP Concur integration with the national award-winning corporate mobility brand ECO Rent a Car Global ground transportation service aims to offer a host of advantages for the Business Traveler:

1. Book a ride anywhere in the world through the ECO Rent a Car site and get a reliable, secure and hygienic car and chauffeur at your destination every time.

2. You have the choice to book a standard, executive, or luxury car. Regardless of the category of vehicle you book with ECO, you will receive a well-trained, qualified chauffeur in a clean car with standard guest amenities for your comfort and convenience.
3. Payment can be made securely through your preferred credit card at the time of booking.
4. E-receipts will flow automatically into Concur Expense, giving you visibility and control over your ground transportation spending.
5. ECO provides personalized services for travelers and is happy to assist you with any special service requests. All-inclusive transfer rates for all major cities in Asia, Europe, USA, Canada, South America, Australia can be accessed through the link on your SAP Concur App. In case you require any special rates, please write to global@ecorentacar.com

With this integration, we aim to simplify and provide our users with an end-to-end solution right from booking the car service to receiving your e-receipts for rides automatically in Concur Expense. Go ahead and click on the Connect button to access link ECO Rent a Car to Concur Expense to receive e-receipts for rides booked in over 45 cities in India and 950 cities across 130 countries worldwide.

ECO Rent a Car works with Expense for Concur Standard and Expense for Concur Professional. It is now available the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the ECO Rent a Car integration, visit https://www.ecorentacar.com/

MOVV

MOVV is an innovative global mobility platform that allows travelers to easily access exclusive drivers and cars through a mobile application. MOVV provides access to smart chauffeur services with Korean language support for 17 cities in five countries and is rapidly expanding.

Benefits of using MOVV:

- Easy access to drivers and cars: Customers book through MOVV's easy to use mobile app.
- Free schedule adjustments while traveling: Simple, no hassle changes at any time while using the MOVV service.
- On-call dedicated driver: Call a dedicated driver at any time through MOVV's mobile app.
- Expansive travel guide information: Users can get a variety of travel information through the MOVV application, search for places they want to visit, and set their schedules.
- No inconvenience due to language barriers: The application also enables communication between passengers and private drivers in Korean to make it easy to communicate.
- Integration with Concur Expense: Connect your accounts and automatically receive e-receipts and transaction information after your ride for easy business expense reimbursement.

Click Connect to enable the integration with Concur Expense and get started!

MOVV works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about MOVV integration, visit http://movvcorp.com/

Sharebite, Inc.

Order business or personal meals online from over 2,000 restaurants and help fight hunger in local communities.

Sharebite is a mission-driven food ordering platform built exclusively for companies. Sharebite clients include "Bulge Bracket" investment banks, Vault 50 law firms, Big 4 accounting firms, and technology companies. Companies that partner with Sharebite save money, inspire their workforce, support local restaurants, and commit to helping the community.

Sharebite allows companies to manage employee food ordering by setting up different parameters based on company departments, roles, office locations, etc. All budget groups are set up during the corporate onboarding process and can always be modified should changes be necessary.

With the Group Ordering product, individually labeled orders can arrive together from a list of specific restaurants pre-selected by a firm administrator. For company town hall meetings, team breakout sessions, or everyday lunch, group ordering simplifies food ordering for everyone.

Sharebite helps companies extend social good beyond the office walls, helping end the hunger epidemic, and set an example for the business community at large. Sharebite donates 2% of every order placed to charitable organizations dedicated to fighting hunger in America.

Key benefits of Sharebite include:

- A white-glove onboarding experience provided by a corporate onboarding team dedicated to your company - Corporate admin portal to manage allowance groups, users, permissions, reporting, and more
- Simplified T&E process via direct billing and e-receipt integration with Concur Expense to automate meal expense management
- An impressive catalogue of local restaurants and caterers, excited and well-equipped to service corporate clients
- 24/7 customer support – dedicated account managers are available to provide recommendations or assistance within minutes

If you have a corporate Sharebite account, click the "Connect" button to enable the integration with your Concur Expense account. Or, click "Visit our Website" below to learn more about how your company can partner with Sharebite to order corporate meals.

Sharebite works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the Sharebite integration, visit https://sharebite.com/

eHi Itinerary Expense Autosync

eHi Car Rental provides comprehensive car rental services for individuals and enterprises. Headquartered in Shanghai, eHi has opened more than 6,000 outlets in more than 450 cities across China since it was established in 2006. eHi now offers more than 200 models and over 80,000 vehicles and its service covers the whole country.

eHi provides a full range of car service solutions, including long lease, fleet management, self-driving short lease, conference vehicles, and high-end vehicles. From the very beginning, eHi Car Rental has established a core value of "attentive service," becoming the designated business car company of many Fortune 500 enterprises in China.

Through the integration of eHi Car Rental and SAP Concur solutions, customers can experience high-quality, integrated car solutions and simplified expense reimbursement in Concur Expense. The automated itinerary sync means that any rental car transactions processed by eHi will be sent directly to an available expense report as an expense item and e-receipt.

The partnership between eHi and SAP Concur helps businesses operate more efficiently and reduces the administrative burden to procurement, finance, and employees. The solution makes it easy to book and expense a wide variety of car service solutions, decreasing the time and cost to procure car service, ensuring compliance with business policies and regulations, and simplifying the expense reimbursement process.

eHi Itinerary Expense Autosync works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the eHi integration, visit https://www.1hai.cn/.

S.RIDE

Simple.

One-Swipe Taxi Dispatch

Call the nearest taxi with a single swipe. The taxi pick-up location will be automatically adjusted for you, with no need to make detailed adjustments. While you wait, enter your destination for an even smoother trip. If you run into trouble, you can easily contact your driver with text messages.

Smart.

Cashless Means Your Trip Ends Smoothly

Register your credit card with S.RIDE to pay for taxi rides online. Pay for rides on the move with S.RIDE WALLET merely by scanning the 2D barcode displayed on the backseat monitor with your smartphone. This means that you can finish your trip taxi smoothly without having to deal with cash. Digital service usage statements can be issued using the app as well, so you don't need to worry about losing your receipt.

Speedy.

One of Tokyo's Biggest Networks

The nearest taxi to your location will be dispatched from one of Tokyo's largest taxi networks. Users can get to their destination smoothly without wasting time.

SAP Concur Integration

Receipts from taxi rides booked with the S.RIDE app are automatically sent to Concur Expense. This helps eliminate the hassle of entering the location, date, and cost, greatly reducing the amount of work required for expense settlement.

S.RIDE works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the S.RIDE integration, visit https://www.sride.jp/en/

User Connection Apps Now Available

PayPay

PayPay enables easy and discounted payments directly from your smartphone. The PayPay mobile app can be used to pay at over 2 million locations across Japan, including convenience stores, drug stores, and restaurants. No cash or wallet required.

Register in only one minute and pay with PayPay right away.

Choose from three available payment methods:

1. Top up from your bank account
2. Top up from a Seven Bank ATM
3. Charge to your credit card

Now, you can submit your business expenses to Concur Expense in the PayPay app for easier reimbursement. Just follow these three simple steps:

1. Connect PayPay and Concur Expense
   • Click the "Connect" or "Login to Connect" button on this page
   • Follow the instructions on the screen and login to PayPay to complete the connection
2. Take a photo of the receipt for your purchases with PayPay
   • Tap on "Register Receipt" in "Transaction History" and take a photo
3. Confirm the details and send to Concur Expense
   • Check the details on payee, date, and amount, add a comment, and submit.
   • Your transaction information, receipt image, and an electronic receipt (e-receipt) will be automatically sent to Concur Expense for easy expensing*

* Please follow the rules provided by your organization regarding how to handle the receipt photo attached to the expense item submitted from the PayPay app and e-receipt issued by SAP Concur.

PayPay works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the PayPay integration, visit https://paypay.ne.jp/.

Ordit

Ordit has partnered with a large number of local restaurants and caterers to deliver the best possible food experience and cater for all cuisines, dietary preferences and allergens.

Employees can order on-demand or pre-order in advance.

Make food ordering easier than ever by connecting your Ordit profile to SAP Concur! Food order receipts will automatically be sent to Concur Expense.

Get started in 3 simple steps:
1. Click "Connect" to begin the process to link accounts.
2. Login to your Ordit account and agree to connect accounts.
3. Once you've ordered, we'll send you a confirmation, and you'll either wait for your order to arrive or pick it up yourself. Your e-receipt will be automatically sent to your connected Concur Expense account.

Ordit works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the Ordit integration, visit https://ordit.co.uk/.

RoadGoat

Connect to RoadGoat, one of the fastest-growing traveler communities in the world.

When you're planning your next trip, peek into RoadGoat to see who from your LinkedIn, Facebook, or Google networks are in town to grab a meal with. Tap into our travel recs for where to eat, drink, and play during your free time.

Wherever you travel, RoadGoat organizes a history of all the places you've been. Use its interactive travel map or connect RoadGoat to Concur Travel, TripIt, social media, email, fitness trackers, and more to have your travels update automatically. Compete with friends and coworkers to see who's been traveling the most.

RoadGoat works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the RoadGoat integration, visit https://www.roadgoat.com.

Orbi by SilverDoor

When it comes to booking accommodation for corporate travel, it's important to be equipped with tools and services that help make your job easier. That's why SilverDoor developed Orbi, the intelligent way to manage your serviced apartment programme.

Orbi was designed to enable corporate clients to easily search, view and book apartments around the world at the touch of a button and make reservations for stays of any duration.

Monitor, view or change your bookings, select favourite apartments and locations, run reports, track your spend, and make sure your programme is working as efficiently as possible, all via a secure closed platform that is only visible to you.

You can make instant online bookings utilising Orbi's live availability, see all of your upcoming reservations in one place and request extensions or cancellations. From Orbi's reporting dashboard, you can see a snapshot of how your programme is performing. You can also create your own bespoke reports based on the stats that are important to you.

Every aspect of Orbi is completely customisable to ensure the apartments you and your team book are compliant with your programme and suitable for your travellers. If you manage travel for others, you can highlight preferred properties or set budgets for specific user groups.

Duty of Care is one of the number one concerns for travel managers. That's why it's at the heart of Orbi. Not only has SilverDoor partnered with the leading traveller tracking providers to offer security monitoring services, travel managers can also see where all of your business travellers are staying at the click of a button with the detailed interactive map.

With the integration to Concur Expense, your transactions and e-receipts for Orbi bookings will automatically appear in your Concur Expense account as available expenses. Click "Connect" to connect your Orbi and Concur Expense accounts and enable the integration.

Orbi works with Expense for Concur Standard and Expense for Concur Professional. It is now available in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the Orbi integration, visit https://www.silverdoorapartments.com/orbi/.

- OFF-STREET CAR PARKING: Book parking at more than 1,000 airports & urban car parks
- ON-STREET CAR PARKING: Forget coins! Use the parkimeter to park and pay on your mobile in more than 120 Spanish cities
- EXPENSE MANAGEMENT: Easily send your e-receipts to Concur Expense after you park or ride

Imbric (Taksee) works with Expense for Concur Professional. It is available now in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the Imbric (Taksee) integration, visit www.imbric.com.

Apps for Me/User Connection Apps Coming Soon: **HP** for SAP Concur

Apps for Me/User Connection Apps Coming Soon

HP for SAP Concur

HP for SAP Concur makes it easy to send your receipts to Concur Expense, simplifying your expense reporting process and saving you time. You can scan, preview, and submit receipts to your SAP Concur account directly from the touch screen of any HP Enterprise MFP enabled with JetAdvantage Apps.

HP for SAP Concur enables you to:

- Scan receipts directly to the Concur Expense receipt store
- Preview the scan image on the MFP screen before sending
- Configure the scan options to suit your needs

Getting started is easy! Launch the "HP for SAP Concur" app from the main screen of your HP multi-function device. Login with your Concur ID and then scan your receipts.

HP for SAP Concur works with Expense for Concur Standard and Expense for Concur Professional. It will be available soon in the SAP Concur App Center under User Connections (formerly Apps for Me) at www.Concur.com/AppCenter. For more information about the Imbric (Taksee) integration, visit www.hp.com/go/digitalworkflow

Meituan

Meituan Dianping Shangqitong provides enterprises with easy-to-use meal compliance management services, with wide coverage across China and excellent options and resources. Through the Meituan Dianping platform, companies can reduce catering costs, optimize efficiency, prevent risks, and increase employee satisfaction. And, by connecting Meituan Dianping to SAP Concur, e-receipts for transactions will appear automatically in Concur Expense for easier expense reimbursement and spend tracking.

Meituan Dianping provides services for a variety of business meals:

- Business meals: Services for on-site meals for employees' standard workdays
- Meeting catering: Meal services for daily meetings / training sessions / company conferences and exhibitions
- Working meals: Meal services for corporate overtime meals / internal group building
